Large Florida Amusement Park

MISTING MADE COOLER

MIST360[™] FAN

**Better cooling.
Better looking.
Better for business.**

Efficient and attractive cooling

Mist360[™] fans are engineered to cool outdoor areas, no matter how high the humidity, with a unique 360° broadcast of cool air and the finest mist available. Energy and water efficient, the Mist360 fan is unrivaled for its ability to cool outdoor spaces without the excessive moisture problems common with traditional misting systems.

- Mist360 Classic—12 nozzles, 20-foot broadcast zone
- Mist360 Breeze—10 nozzles, 15-foot broadcast zone

Patio Areas that generate income year round

Transform your outdoor patio into a **destination**. Combine a Mist360 fan with an Alfresco365[™] cantilever umbrella and you've created the optimum outdoor space, providing shade and cooling during the hotter months. Add a heater and your guests can dine alfresco 365 days of the year.

Broadcasts cool air 360 degrees.

Cools 20°F to 40°F (10°C to 20°C).

Ruby-orifice nozzles provide the 'driest' mist available.

Mounts to ceiling with standard fan mounts.

Cantilever and Pole mounts available.

Customize with your colors, logo, and designs.

MISTING MADE COOLER

MIST360TM FAN

Maximum cooling with the Max

With a 40-foot diameter broadcast zone, the Mist360 MAX effectively cools larger outdoor areas and warehouses, replacing less efficient and less effective traditional misting systems. Add cycle timers on the pump to maintain optimum cooling and humidity, creating a pleasant work environment inside or outside.

- Equipped with 16 ruby-orifice nozzles to provide the 'driest' mist available.
- Cools outdoor and warehouse areas 20°F to 40°F (10°C to 20°C).
